Feed Back & outcome summary

The candidates who took part in the EP program were very excited because of new concept they appreciated the efforts which was taken by MOT, GOI & IHM to educate them to start their own business, they liked the information about self employment, Govt. Schemes, loan schemes which were available in market for them. As a feedback they appreciated that how to develop Wise thinking about new concept or new ideas, they also liked how to calculate cost for any new startup, and do market survey, time management and especially they understood that no business is small if it has been taken as a opportunity.

As a part of Outcome, some of them have already start thinking to set up their business on a micro level, many of them are enquiring govt. Schemes, loan facilities and doing market survey, Some of them have involved themselves in their family business to improve the facilities and also to grow their business by expanding. Some of them are taking training on technologies that how they can start online business or online home delivery for their local art, food product to potential customers. We hope that in future number will increase in terms of new strartups and new business as the situation will become normal.
